

## NEW STUDENT HEALTH REQUIREMENTS

“Congratulations! You have been accepted into Toccoa Falls College!” Words you have been waiting for. The next steps to get ready for check-in day are before you.

Among other things there are health requirements to take care of. Attention to these items before arriving on campus will greatly expedite your check-in process. First, complete the [Medical History Form](#). Be prepared with your immunization record since there are some important vaccines required before admittance to TFC. Most of these are common childhood immunizations and it is likely that you have already received most if not all of them. The required immunizations are:

- Hepatitis B – 3 doses
- Measles, Mumps and Rubella (MMR) – 2 doses
- Varicella (Chicken Pox) – 2 doses (unless you have history of the chicken pox illness)
- Tetanus booster within the last 10 years
- Meningitis vaccine – This is not required but **STRONGLY RECOMMENDED** especially if you are planning to live on campus. If you choose not to receive the meningitis vaccine you **MUST** read, sign and turn in a [waiver](#).

Second, the Medical History Form includes 3 Tuberculosis Screening questions. If you answer “Yes” to any of these questions, please have your healthcare provider complete the [Tuberculosis Screening Form](#). This may or may not include a TB test. Please submit this form and TB test results to Student Health Services.

If you have any questions regarding health requirements, please contact Student Health Services at [health@tfc.edu](mailto:health@tfc.edu) or (706) 886-7299 ext. 5304 or 5306.
